CONTRACTS LET FOR LOCAL SCHOOL COAL

SALT LAKE, Sept. 14.—H. V. Eckhardt, state purchasing agent, let contracts yesterday for the supply of coal for state institutions. The University of Utah will be supplied with 4000 tons of mine slack at a cost delivered of \$4.20, and the state capital will receive 1200 tons of screened slack at the same figure. The state prison will receive 500 tons of mine slack at \$3.55 on board cars at the prison. This coal is purchased from the Standard Coal company.

These two companies had made their bids before the mines announced their latest advances in the price of coal and they did not receive any raise with the raise in price. For the state institutions at Logan and Ogden, the Royal Mines company gets the contracts at the advanced mine prices. The Utah Agricultural college will get 2400 tons of screened slack at \$3.10 mine price or \$4.80 at Logan on cars. The state school for the deaf and blind at Ogden will get 1400 tons of mine slack, and the state industrial school at Ogden, 4000 tons of the same fuel at \$2.50 mine price, to which the freight will be added to complete the cost to the respective institutions.

Sharing Safe Deposit Boxes

A young man had \$2000 in good securities in his father's safe deposit box. The home he wanted to buy was for sale at a bargain; the owner wanted a quick sale. His father was on an extended business trip. He could not get his securities and so lost the bargain. He lost enough to pay a hundred years' rental on several safe deposit boxes. Have a safety box of your own.

A New Tread—a Lower Price Reliable Goodyear Quality

Here is a new Goodyear Cord Tire—a big, sturdy, long-wearing tire—that sells at a price lower than you are asked to pay for many "long discount" tires of unknown value. It has a different tread from the famous Goodyear All-Weather Tread Cord—a new tread with a deep, clean-cut, cog-like pattern—and it sells for substantially less. It has in it the same high-grade long-staple cotton, the same Goodyear patented group-ply construction, the same liberally oversize dimensions. When you buy the 4 1/2-inch size, for example, you get a tire whose actual measurement is nearly 5 inches. Don't confuse this Goodyear Cross-Rib Tread Cord with other popular-price cords which sell at the same price or for slightly more. In many cases, these other cords are made of inferior materials, with short-staple cotton as a foundation. Get the tire that is good enough to carry the Goodyear name, that is built to safeguard the world-wide Goodyear reputation.

Compare these prices with NET prices you are asked to pay for "long discount" tires

30x3 1/2 Clincher	\$12.50	32x4 Straight Side	\$24.50	33x4 1/2 Straight Side	\$32.15
30x3 3/4 Straight Side	13.50	33x4 Straight Side	25.25	34x4 1/2 Straight Side	32.95
32x3 3/4 Straight Side	19.25	34x4 Straight Side	25.90	33x5 Straight Side	39.10
31x4 Straight Side	22.20	32x4 1/2 Straight Side	31.45	35x5 Straight Side	41.05

These prices include manufacturer's excise tax

Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks

The Cap that never fits

"NO harm can come to me from coffee or tea," is what so many people say. Yet those same people are often quick to note the signs of coffee harm in others.

How familiar the danger signals are—upset digestion, sleepless nights and irritability—all warnings of the nervous breakdown that lurks just a little way ahead. How easy and how delightful the escape—by drinking delicious Instant Postum instead of the beverages that contain the irritant caffeine.

Instant Postum is the tempting cereal drink made from roasted wheat. It is prepared instantly in the cup by the addition of boiling water. Its snappy flavor is not unlike that of coffee.

It is safe for everybody in your household including the children, and there's nothing in Postum to keep you awake even if you drink it at midnight.
